Reeves County, Texas: Oil Production and Top Operators

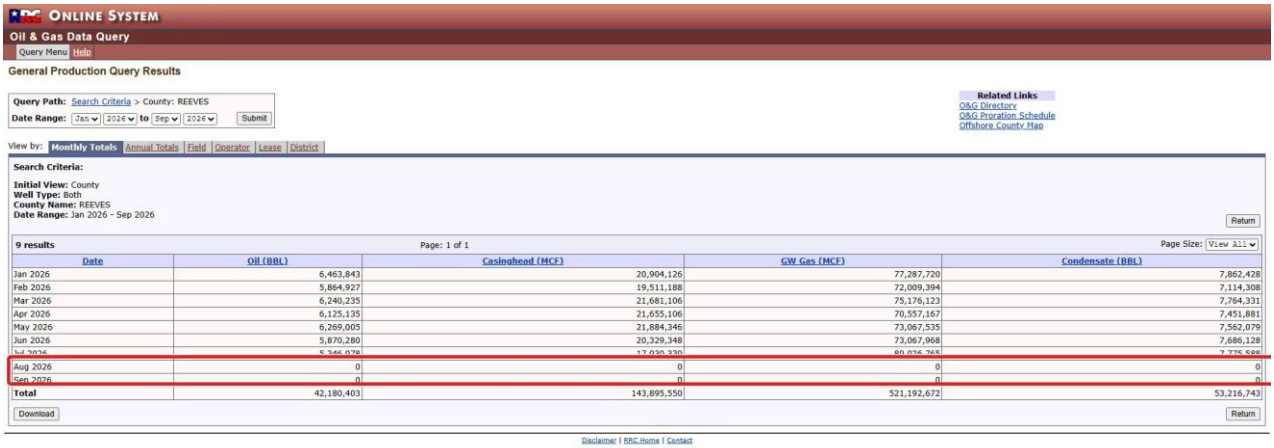

LMJ Chalk Talk · County Report · July 2026 (07-01-2026 to 07-31-2026)

In July 2026, Reeves County produced 5,346,978 barrels of oil and 97,957,095 Mcf of gas. The RRC approved 59 new drilling permits and 6 amended permits. Operator spotlight: Permian Resources; also in the top 10: Diamondback E&P.

Every figure here comes from the Railroad Commission of Texas's public queries, pulled 10-17-2026, and is shown live in the video.

Step 1. See which months the RRC has published

Open the RRC Production Data Query, pick Initial View: County, County: REEVES, and set Jan 2026 to Sep 2026. Submit. July 2026 is the newest month with numbers. August and September come back as zero because production is reported months late, not because nothing was produced.

Period: July 2026. Operator of record as reported to the RRC, not a leasehold ownership figure. Pulled 10-17-2026.

The routine

1. Check which months are published before you name a period.
2. Operator view for the newest month; View All so nobody is cut off.
3. W-1 query by approved date; count amended permits apart from new ones.
4. Lease view by operator for the top leases.
5. Spot-check two or three leases on the RRC's own lease page.

The trap

A zero for the newest months is not a zero month. It is a month not yet reported. And a lease that crosses a county line shows only this county's share in the county query, so its lease page on the RRC will show a bigger number. Both are normal. Name the period you actually have.
